

Dear Sirs:

Please reject the NAB's petition 04-160. As a customer of XM, I can assure you the value of XM's ability to offer local traffic and weather reports. If they didn't, I wouldn't be informed because I NEVER listen to regular, public broadcasting. My XM radio is on constantly, as I travel from Richmond to Raleigh weekly. I could certainly benefit from local traffic and weather reports since I would not hear it otherwise. It's my choice to listen to XM, and no ranting on the NAB's part is going to change that.

Thank you for your consideration.

Best regards,

Nichole Hornsby
